

## Subrion Opensource CMS - Feature #1035

### Get rid of redundant parameters of iaField::getAllFields method

October 17, 2013 22:24 - Batyr Mackenov

<b>Status:</b>	Resolved	<b>Start date:</b>	October 17, 2013
<b>Priority:</b>	Immediate	<b>Due date:</b>	
<b>Assignee:</b>	Batyr Mackenov	<b>% Done:</b>	100%
<b>Category:</b>	Core	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	3.1.0		
<b>Description</b>			
All of the packages use this method with the following first parameters:			
<pre>iaField::getAllFields(true, null, ...);</pre>			
Will be good to remove the first two of them.			

#### History

##### #1 - October 24, 2013 00:02 - Vasily Bezruchkin

- Assignee set to Batyr Mackenov
- Priority changed from Normal to Immediate

##### #2 - October 24, 2013 00:08 - Vasily Bezruchkin

Use the bridge for released packages cross compatibility:

1. Create a new method with correct params, getFieldsList or anything like that
2. Keep this getAllFields as is but call the new method inside
3. Use the new method in the upcoming packages: Autos, Real Estate, Coupons, Yellow Pages.

##### #3 - October 29, 2013 05:54 - Batyr Mackenov

- Status changed from New to Resolved
- % Done changed from 0 to 100

Method renamed to getByItemName, unused parameters removed.

In order to save a compatibility, kept the old-named method that internally refers to the new one.
