| Category: | Core | Estimated time: | 0.00 hour |
| Target version: | 3.1.0 | | |
| Description | | | |
| <p>This happens when you try to create field from package install.xml file. As an example, create new text field for member and try to assign it to General field group like this:</p> | | | |
| <pre><field name="member_info" item="members" group="general" type="textarea" length="500" required="0" page="profile">Member info</field></pre> | | | |
| required= | | | |

History
