Target version: 2.2.2	
Description There is a way to hide column by default using columnModel property hidden: true for the grid. Now there is no way to do this using our interface. Please implement this in our default grid. Thanks	

History

#1 - July 23, 2012 02:43 - Vasily Bezruchkin

This worked fine for fields grid. I added **hidden: true**, for columnModel and it worked. It didn't work for some other grids.

#2 - July 23, 2012 03:12 - Vasily Bezruchkin

Worked fine on Menus page.

#3 - August 20, 2012 00:35 - Vasily Bezruchkin

- Target version changed from 4.6.0 to 2.2.2

#4 - September 04, 2012 05:37 - Vasily Bezruchkin

- Status changed from New to Resolved

- % Done changed from 0 to 100

The functionality seems to be working in the latest available version.
