

Subrion Opensource CMS - Feature #1372

Make it possible to add a few {capture} tags into the same position

January 13, 2014 04:04 - Anonymous

Status:	New	Start date:	January 13, 2014
Priority:	Normal	Due date:	
Assignee:	Batyr Mackenov	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	4.4.0		

Description

For example, if there are 2 or more plugins that use this structure:

```
{capture append='tabs_after' name='__all__'}  
...  
{/capture}
```

The appending content of one plugin will rewrite other's ones.
We should make it possible to add captures under each other.

History
