<b>Target version:</b>	4.4.0		
<b>Description</b>			
We need some sort of caching.			
It sends ajax query on each typing, no need to do that if you input 3 letters for example, and you already don't have any results. You only need to post queries only when 2 letters are sent again.			
It's possible we need to implement this as a wrapper for intelli. class			

### History

#1 - August 04, 2014 02:25 - Vasily Bezruchkin

- Assignee deleted (Batyr Mackenov)

- Target version changed from 3.2.0 to 4.4.0
