

Subrion Opensource CMS - Feature #213

Integrate YouTube field type

August 21, 2012 06:28 - Vasily Bezruchkin

Status: New	Start date: August 21, 2012
Priority: High	Due date:

Category:	Estimated time: 0.00 hour
Target version: 4.7.0	
Description	
It should create a textarea to put your youtube link and create a thumbnail of the video. This can be created for any item.	
It's possible we need to implement this as a separate plugin as the same article/member/item/etc. might have several youtube videos.
