<b>Priority:</b>	Normal	<b>Due date:</b>

<b>Target version:</b>	4.1.0	<b>Spent time:</b>	0.00 hour
<b>Description</b>			
If admin allows guests to submit a listing, guests can submit the listings, but after that, they cannot see it. They get a 404 Not Found error with message "Listing has been successfully submitted." Please make it possible to see the listing as guest if the listing was posted by this guest user. Using sessions can be the solution.
