

Yellow Pages Script - Bug #2321

Duplicate entries in all_cities block

Description Related to #2291 Because of the incorrect counting of companies, method <code>getAllCitiesByLetter</code> in <code>/packages/yellowpages/includes/classes/ia.front.yloc.php</code> file works incorrectly. This method has a query with a join to <code>`{prefix}yp_companies_count`</code> table. So there are duplicate entries in the result.
