Some things need to be improved:	
<ul style="list-style-type: none">- There is a search box to search coupons.- Filter for Tag does not work.- There is a button to print the discount coupon.- Code coupon does not show the image of the product when we see the open coupon (like the Printable Coupon).- Block (Coupon of the day) always shows the same coupon.- Block (Info Shop) Link shop appears a 404 error (corrected by me).- Time counter does not work properly (Example: If I create a coupon with only 12 hours of validity, the system does not count hours, only full day).
