

Yellow Pages Script - Bug #434

Backend: Incorrect check for title-alias existence

November 16, 2012 04:55 - Batyr Mackenov

Status: Resolved	Start date: November 16, 2012
Priority: Urgent	Due date:
Assignee:	% Done: 100%
Category:	Estimated time: 0.00 hour
Target version: 2.2.2	
Description There is an incorrect checking for existence of title-alias field in Admin Panel -> Manage Categories. It seems the check is applied to all of categories entries, but the currently edited category should be excluded from this check. In this case the checking would pass correctly.	

History

#1 - November 17, 2012 03:43 - Batyr Mackenov

- Status changed from New to Resolved

- % Done changed from 0 to 100

Fixed.
