

Subrion Opensource CMS - Feature #806

Bug # 805 (Resolved): Unique key assigned to NAME column for "blocks" DB table

Plugin name should be considered in changeset instructions

May 06, 2013 05:54 - Batyr Mackenov

Status:	New	Start date:	May 06, 2013
Priority:	Normal	Due date:	
Assignee:	Batyr Mackenov	% Done:	0%
Category:	Core	Estimated time:	0.00 hour
Target version:	4.4.0		
Description			
<p>Since here will be a paired DB index for blocks table, the plugin name part should be also considered when installing templates/packages.</p> <p>For example, this instruction will deactivate all of the blocks named <i>top_categories</i>:</p> <pre><changeset> <block status="inactive">top_categories</block> </changeset></pre> <p>Instead, the script should provide a way to deactivate this block only for, say, Publishing package, as follows:</p> <pre><changeset> <block status="inactive">top_categories-publishing</block> </changeset></pre>
