| Target version: 3.1.0 | |
| Description There is a feature to set location as default in the package. But if set a first level location as default there will be incorrect URLs to categories, listings. Since there no any manual available, most of users get 404 error once set a first level location as default. | |

History

#1 - May 21, 2013 06:06 - Anonymous

- Status changed from New to Resolved
- % Done changed from 0 to 100

There is no need to implement this feature due to Feature [#816](#).
For now any location level is acceptable.

#2 - May 21, 2013 06:07 - Anonymous

- Status changed from Resolved to Closed
