

Subrion Opensource CMS - Feature #823

Include item's ID/Title to payment details

May 26, 2013 23:31 - Batyr Mackenov

Status: Closed	Start date: May 26, 2013
Priority: Normal	Due date:
Assignee:	% Done: 100%
Category: Core	Estimated time: 0.00 hour
Target version: 3.2.5	

Description

testIt will significantly simplify the manual routines of payment processing if generated receipts will have also an item ID or title. For example,

```
articles - Unique Article Post - Hello, World (#3551)
```

instead of

```
articles - Unique Article Post
```

History

- Target version changed from 3.0.0.alpha to 3.0.2

#2 - October 03, 2013 23:24 - Vasily Bezruchkin

- Category set to Core

- Target version changed from 3.0.2 to 3.1.0

#3 - October 10, 2013 20:48 - Vasily Bezruchkin

- Target version changed from 3.1.0 to 3.1.8

#4 - January 05, 2014 23:49 - Vasily Bezruchkin

Original ticket request: I am not thrilled with the ability of tracking paid or managed plans. When payment is submitted, it would be ideal to have more information to track the payments. For example, when I get a PayPal receipt, there is no reference within PayPal of which article was submitted. The only information carried across to PayPal is the name of the plan. In my case, on 411homerepair.com/diy it is articles - Unique Article Post Could you add the article number for ease of tracking? For example, "articles - Unique Article Post - XXX", the XXX represent the article number.It would be great if there was an email auto generated that included a payment link to PayPal for those that don't pay immediately.

Again, having a reference to the article number would be ideal.The email generated to the administrator called 'New Articles Alerts' has some dynamic information; however I would find having the author information readily available helpful. I tried these tags; however these tags don't seem to work within the article template:{%EMAIL%} or {%USERNAME%}Right now, I have to look up the user that posted the article, then find the email address, and then send information about payment. This seems like it could be automated and save several steps in processing. I have more thoughts on improvements; however I'm not sure what you have on the schedule for future releases about these payment plan features.TICKET ID: MXB-320-35770Please update the ticket once completed. Thanks!
